

MSB OF DESTIN, INC.

DBA AJ's Restaurant & Marina

November 1, 2007

RE: **Gulf Hospitality Systems Inc.**
POS Maintenance (Focus)

To whom it may concern:

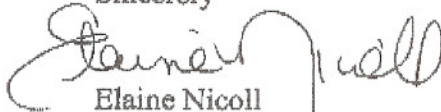

MSB of Destin dba AJ's Restaurant and Marina (Destin, Florida) has been fortunate to have employed the services of Gulf Hospitality Systems for maintenance and repair of all of our Point of Service systems, and computer needs. During this time, Russ McGuire and his staff have provided our company with excellent support and service.

Gulf Hospitality, via Focus Software, came to our rescue when our maintenance support went out of business, more than 1 year ago. Since that time, Russ and his staff have made every effort to meet all of our support needs, and they have been many. In less than one year's time, with the help of Russ and his dedicated technician, Greg Kilpatrick, our systems went from nearly total failure, to a system that has been maintained, upgraded, and fully operational. Since Day 1, Russ and his staff have made AJ's technical and support needs their priority. With an establishment as large as AJ's, our needs were often, and many, and Gulf Hospitality Systems Inc. was there to accommodate and assist with any problems or issues that arose. We can attest to their professionalism and their ability to successfully service their customers.

We can confidently recommend Gulf Hospitality Systems for your POS support needs. Russ and his team have done an exemplary job for us with regard to our account, and we can honestly say, in many cases, we do not know what we would have done without them.

Gulf Hospitality would be an asset to any hospitality business and we would highly recommend them for any of your POS and support needs.

Sincerely

Elaine Nicoll
Controller
