TO WHOM IT MAY CONCERN:

This is to inform you that we have done business with Gulf Hospitality Systems, Inc for more than six years. We are pleased to report that all business has been conducted by Mr. Russell McGuire, Mr. Matt McGuire and their staff in a highly satisfactory manner.

Russell, Matt and their staff of Service Technicians have always been extremely helpful in every aspect of POS operations. The range of their knowledge of the industry and equipment is very broad. The Team is Always eager to assist in any situation and especially in emergencies. Gulf Hospitality Systems was also there for us during Hurricane Katrina and other storms. "They are Fast Responders" !!!

The POS system purchased from Gulf Hospitality Systems is simple to use. The POS system has made our business life much simpler too. With a push of a button, we can track anything we want to know throughout the restaurant. The system can be monitored remotely over the internet which is a great perk for us.

For our size restaurant, Hucks has four POS locations throughout the restaurant and deck areas. We initially had just two. The four POS has proven to increase all operations exponentially.

Hucks Staff and owners would recommend with complete confidence, the POS system and Gulf Hospitality Systems, Inc. of Mobile, Alabama.

If you wish further information, please contact us at 228-547-1566.

Respectfully,

Jo Ann Woroner
